

ROPOX MOBILIO CHANGING BED

FREESTANDING AND STABLE

Ropox Mobilio changing bed is mobile and with brake wheels. This ensures that the changing bed can be stable and is easy to move if needed. It is also available with central brake, which locks all wheels at once.

The changing bed can be connected to a standard electrical outlet with a three meter long electrical height adjustment cord. The height is adjustable from 52-92 cm by using a hand control.

Ropox Mobilio changing bed is available in five models with bed guards on both sides and with a mattress for increased comfort.

The replaceable mattress has a cleaning-friendly surface that makes it easy to clean after use.

A batteri is available as an accessory.
